THE BEST WAY TO SAVE MONEY

Is to assume an obligation on some good parcel of real estate and pay for it gradually. Buy within your means and have the payments made easy so you can meet them promptly without trouble. We can help you start. Below are a few suggestions.

HOUSE, modern in every particular, nearly new. Located on Franklin street. Contains six rooms, besides pantry, hall and numerous closets. All hardwood floors and first floor is all finished in birch. Heated by furnace and has set wash tub; cellar bottom cemented, etc. It will suit you. Price and terms so reasonable you cannot afford not to own it if you want a nice home.

SEVEN-ROOM RESIDENCE, built by the owner for a home; located in good neighborhood, not over five to eight minutes' walk from center of city. This is a very well constructed home, all polished floors down stairs; finished in hard wood. Large lot, 100 feet square, affording plenty of room for another house. Price considerably less than it would cost to build.

SOUTH MAIN STREET PROPERTY, consisting of six-room house, built in 1902. Would make a fine home, or will rent for \$25.00 per month. This is a very good proposition at the price. Owner in poor health and wants to sell at once. It is sure to please you.

If you are thinking of building, you naturally will have to decide on a location. We can give you some suggestions and show you lots in practically all locations.

Just now we have a very pleasantly located lot about 5 minutes' walk from the post office. Residential location. Corner two good streets. One of the finest views in the city. Price low. Must be sold by April 1.

LARGE HOUSE AND BARN, situated on nearly one-half acre of land; located in the southern part of the city. House is painted white, contains nine rooms. Barn is large. This will make a fine home for any one wishing to keep a team or poultry. As owner lives out of town, we are allowed to offer the property for \$1,000.00 less than it is worth; will retain part of the fund, if the purchaser does not care for all.

For an Investment Consider These:

11-ROOM HOUSE, with bath room and shed, rented at \$23.00 per month, in best renting locality in the city and never vacant. Will sell so it will pay 15 per cent. on price.

PROPERTY paying over \$600.00 per year, rented to good class of tenants. Price so low it will net nearly three times as much as savings banks pay. Main street location.

FARMS, all prices and sizes. Over one hundred to choose from.

16-ACRE PLACE, with good house and barn, for \$1,125.00, located near neighbors and on good road.

D. A. Perry Real Estate Agency, Barre, Vt.

A Gold Dust Home is a Healthy Home

Gold Dust is a sanitary cleaner that searches out every germ and impurity.

It is the modern aid to easy housework. It does more work, more kinds of work than soap or any other cleanser. It cleans everything and anything about the house—dishes, clothes, floors and doors, pots and pans, bath rooms, refrigerators, etc. It cuts dirt and grease like magic, saves you from hard rubbing and scrubbing, and enables you or your servant to do more work and better work in just about half the time.

The Most Famous Cartoonist in the World.

A humorist writes about a cartoonist in the April American Magazine; the former is George Ade and the subject of his sketch is John T. McCutcheon, the famous cartoonist of the Chicago Tribune. Part of the article is as follows:

"In these days of factory journalism, with the Archimedes lever being worked by motors and the department displacing the old-time editor, it means something when a regular, day-by-day newspaper worker attaches himself to a real following of faithful believers. Many a brass young specialist can do the mushroom act. He humbles into the Sunday supplement with a brand-new conception entitled 'Tiky the Tuff' or possibly 'The Brutal Twins' (the grand mother) and for a few weeks he is a vagabond then he divides from a necessary evil to an unmistakable pest and winds up as unpleasant reminiscence."

"Most of the gnomes who make pictures for the newspapers are so funny they cannot last. Furthermore they seem to think that the cranial angle of the regular subscriber corresponds to that of the African antelope. It is a relief to find a newspaper artist who is not straining to be irresistibly comical—who is content to catch the tableaux from the passing show and submit them to us in a mode that is simple, kindly and human."

"John McCutcheon began making cartoons for Chicago papers about fifteen years ago. He has taken long jumps into all parts of the world since then, but whenever he can be strapped down in Chicago he is good for a daily contribution to the first page of the Tribune. Some say that he is a habit; others that it is an institution, the same as Hull-Bliss and the crowd of trade. There is no denying that his work is immensely popular and that his cartooning, although genial and apologetic, is most effective. Politicians sigh for the favoring stroke of his cow-cow pen and the faithful who are working to lift up and cleanse and beautify Chicago hail him as their most valuable ally. He has the courage to deal with topics among the little events that make up existence instead of hammering away at huge issues or fusing with public men, who are already advertised beyond their merits. He never loses his temper and he has the rare gift of directing a cartoon at an opponent without tacking on a personal insult."

"A good many thousands of people in the Middle West wait every day for McCutcheon's cartoon and miss him when he goes traipsing off to Africa to hunt big game. No cartoonist since Nast has had such a steadfast and loyal following. His salary, as newspaper salaries go in Chicago, is large that many people refuse to believe it."

The Demon of the Air

is the germ of a gripe, that breathes in, brings suffering to thousands. Its after effects are weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys. The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of stomach, liver and kidneys. First: To elect a moderator to preside at said meeting.

Second: To see what salary the city will pay the mayor, city clerk and city treasurer for the services the ensuing year.

Third: To see what compensation the city will give to the auditors, auditors and assessors for their services the ensuing year.

Fourth: To do any other proper business.

Dated at the city of Barre, Vt., this 23d day of March, A. D. 1910.

James Mutch, Mayor.

About the State

Joseph Devold of Vergennes had his left shoulder broken and chest badly bruised recently by a horse answering him against the side of the stable.

Charles E. Miner, formerly of Burlington, was severely injured in the face recently by a baseball while a spectator at a game in Pasadena, Cal. His nose was broken and several teeth were knocked out.

Mrs. Lydia A. Hutchins, aged ninety-three years, a native of Middlebury, for fifty years teacher of penmanship and drawing in Vermont, Boston, and elsewhere, died Monday in Burlington of bronchitis. A daughter and son survive.

The Rev. Francesco Crociata, now serving a sentence at the house of correction for complicity in the 78 bridge murder, attended the funeral of his sister-in-law in West Rutland Friday under guard. A band of 18 pieces played dirges on the way to the cemetery and a convict priest assisted in the service at the grave.

While employed at C. A. Simmon's saw mill in Stone Hollow, Martin Lawrence, about 18 years of age, caught his foot sleeve on a set screw. The young man was lifted over the arbor twice but in some way he escaped from his clothing, finding himself arrayed in his shoes and coat, and with a shirt. One arm was hurt and his lip was cut.

O. R. Towne, a former Vermontian, is now on the staff of the Omaha Bee, Omaha, Neb. He is a son of the late Orwell Dudley Towne, who lived in Woodbury for years. Over Mr. Towne's grave, at his own request, stands a monument of Vermont granite taken from the quarry on the old homestead in Woodbury. The family now resides in Saratoga Springs, N. Y.

Four large new modern machines for making paper boxes are being installed on the second floor of the Hemington Paper Box factory, where all the manufacturing is to be carried on in the future. The first floor, which is now used for that purpose will be devoted to storage room. This enlargement has become necessary because of increasing business. The present capacity of the concern for making boxes is between 3000 and 4000 daily.

Revere bells are being found in various parts of the state, the latest reported being in Norwich, in the Congregational church, the bell having been put in place in the fall of 1817, when the church was completed. Thomas Emerson, afterward president of the bank of Windsor, was the purchaser and the cost of the bell was \$300. It bears the mark of "Rever & Son, Boston, 1817," and the weight, 69 pounds, is marked with a blue pencil.

Joseph Hamel sustained a bad fall Saturday afternoon at the residence of his son-in-law, A. H. Duhamel, in Burlington. He was carrying a chair from one room to another upstairs and as he was passing the stairway he lost his balance and fell head first to the floor below. It was at first feared that he was seriously injured and a physician was called, but on examination it was ascertained that no bones were broken, only the right arm being lacerated and the back badly bruised. Mr. Hamel is 78 years old.

The oldest traveling newboy in the country, both in years of service and in age, is Patrick P. Collins of St. Albans. "Pat," as he is popularly known, is 59 years old and he entered the business at the age of 12. For the past 15 years he has made the run between White River Junction and St. Albans. During the Christmas celebration his largest day's sales amounted to \$249 and on a small excursion from Swanton to the White Mountains last summer he took in \$125.

Fire destroyed the farm buildings on the Myron Spaulding place in Morrisville, now owned by John LaClare, early Friday morning. Mr. LaClare got up at 5:30 and started a fire in the kitchen. Hearing a crackling, he looked up the stairway and found the upper part of the building on fire. The family, consisting of a sick wife, the children and two old ladies were gotten out of the building as quickly as possible, leaving most of their clothing, which was consumed with nearly all of the household goods.

Charles E. Severance, a Middlebury rustic manufacturer, has just completed and shipped to Washington, D. C., Monday, a large rustic chair, as a gift to President Taft. A letter from the president's secretary, received a few days ago, said that the president would be pleased to accept the chair. The chair stands 5 feet high and is 27 inches wide and contains the very latest designs of modern workmanship. The name "Severance" is raised in large rustic letters on the back of the chair. The chair itself is made of the very best of cedar material.

J. P. Bugley, who has pitched two seasons for Woodstock, has signed for this season with the Lowell, Mass., baseball team of the New England League. Four members of last year's Woodstock team will be tried out by the Lynn, Mass., league team—Davis, first base; Ryan, shortstop; Dumas, third base; Hayden, catcher; Joseph Crogo, who was the captain last year of the Woodstock team, and who signed with the Davenport, Ia., league team, but was sold by them to Jacksonville, Fla., has signed an unconditional release and signed with the North Adams, Mass., team.

SMALL CHILD DROWNED.

West Through Cover Into Cistern at Newport.

Newport, April 6.—The three-year-old son of W. E. Davis, a fireman on the B. & M., met his death last evening by drowning in a cistern, while in sight of his parents. The child was playing around a brush fire and attempted to cross the cistern, which was supposed to be securely covered, but which after the accident was found to be unsecured. The moment the child stepped upon the unsecured board, he went through with out warning and fell in about four feet of water. He was removed as soon as possible, but was found to be dead.

MONTEPELIER CITY COUNCIL

Held Meeting Last Night—Loafers Must Keep Moving.

All the members of the city council but two, met last night and transacted considerable business. The matter of accepting service of citations for the hearing before the public service commission Thursday was brought up and it was voted to overlook the fact that it should have been served twelve days in advance of the hearing and accept it.

The matter of keeping loafers from the store steps and window ledges was left to the police committee to investigate and report, and following the meeting that committee waited on Chief J. S. Durkee and informed him of the action of the council and he, in turn, notified the patrolmen to keep the crowd moving and, if they must talk, to keep to the curb. This feature of the city council was voted to discontinue the custom of using the city teams to haul ashes from houses and office buildings to be used on the roads, as it was thought that it was not for the best interests of the city.

Following the meeting of the city council, the city hall committee held a meeting and discussed several matters, but no action was taken.

\$55,000 IN CASH.

The Result of Northfield Boy's Invention of Granite Saving Machine.

Elroy A. Chase, a Northfield boy and a graduate of Norwich university, class '08, and Elmer A. Lanier, who had been in Northfield for some time, have sold their interest in a granite saving machine, which they have just invented and patented, to George Webb, a wealthy granite dealer in Worcester, Mass., for \$55,000.

Mr. Chase was draughtsman and Mr. Lanier bookkeeper for Cross Brothers in Northfield and while there perfected their plans for the machine, on which they had been working for about two years. They constructed a crude machine in Northfield, at the Phillips & Slack shed, which so favorably impressed Mr. Webb that he persuaded the young men to go to Worcester and construct one for him. So great was the success that Mr. Webb made them the offer of \$55,000 for their interest.

Mr. Chase will remain with the company being formed to manufacture the machines. A peculiar fact is that he received his share, \$27,500, on his 28th birthday anniversary.

PREVENTED BIG LOSS

By Prompt Discovery of Fire in Newport Opera House.

Newport, April 6.—A stubborn fire was discovered yesterday in Lane's opera house block in a small room on the third floor, where some furniture was stored for use on the stage. A quick response by the fire department was the means of checking the blaze and in a few minutes the fire was all out, with but small damage, estimated at \$200. The fire caught from a short circuit in an electric light socket. The loss is fully covered by insurance.

Bridge Torn Up.

The stone bridge at Joseph Coughlin's near Graniteville is torn up for repairs, and the road is impassable for heavy teams for this week. Per order selectmen.
